

February 12, 2012

Hello.

I hope that everyone enjoyed waking up to find some snow on the ground- my kids were hoping for more but at least it was something :)

Our Valentine's Day parties are set for Monday and Tuesday. Please make sure that your child brings in their valentines- we have 8 children for MWF and 12 for TTH classes.

Nichole's and Mark's mom will be bringing in the sugar cookies for us to frost and I have everything else that was sent in already so thank you parents for helping to make this a special day for them.

Our newsletter is for the next 2 weeks covering Letters S and T. During these 2 weeks will talk about Space and Stars and what it would be like to be an astronaut.

We will also talk about trains and our teeth (February is Dental Health Month). We will talk about healthy snacks and good teeth brushing and visits to the dentist.

We will also be covering some science topics like frozen and melting and we now can talk about the snow that we had for a short time before melting away (couldn't have planned that better if we tried :) - we will also be talking about tornadoes.

Ms. Bobbie has a machine that will create a tornado and they will get to see how one forms. Also, this is a reminder that we are closed on Monday, February 20th for President's Day.

Enjoy the rest of the weekend and I will see you next week.

Ms. Jodi
