

October 24, 2011

Last week we focused on letter **F** and number **6**. We are also working on a watercolor nursery rhyme book! We hope you all enjoyed the Pumpkin Counting game made by the children for practice at home.

The Bible story was of the **fish**ermen's empty net and Jesus asking them to try throwing the net onto the other side of the boat. They hauled in more **fish** than the boat could hold by trusting Jesus. I love sharing these stories with the children as much as I loved hearing them when I was small.

Our activities continue to reinforce the use of proper holding of scissors, crayons and pencils. We use all muscle groups during circle time music and outdoor or gymnasium time. Proper classroom manners are worked on also during circle time activities. They are learning through fun and play and what could beat that!

I am sure a fun time was had by all participating in the Bergey's Farm field trip. Due to my hay allergies, I elected to remain behind at the school for the few children unable to go. The next event will be our class Fall party on Monday Oct 31. All parents are invited to spend the day with us and enjoy the events.

Thank You,
Christine Galoppa
